

## Job Description

**Management Grouping: Place**

**Department: Communities**

**Team: Development Management**

**Job title: Principal Planner (Career Grade)**

**Grade: Bexley 14**

**Reports to: Development Management Team Leader**

### Career Grade Scheme

#### Introduction

The Career Grade Scheme within the Development Management Division is based on the following principles:

- (a) It is a career based scheme relating to job responsibility, experience, qualifications and personal performance.
- (b) The pay level of an individual within the career grade is personal and will depend on personal achievement and accordance with the Council's Performance Related Pay Scheme.
- (c) The necessary work at the appropriate level must be available.
- (d) The scheme is intended to assist the organisation with the recruitment and retention of staff in the scarce skill area of Development Management.

#### Pay Determination

##### The Career Grade Scheme:

- (a) Comprises three grades enabling progression where the conditions of the career grade scheme and performance criteria are fully met; a brief description of the level of work required at each grade is specified in Appendix A; and
- (b) identifies, for each grade, the precise qualifications, experience and competence expected of an individual at that grade which, together with the annual work programme, give a full definition of that individual's responsibilities.

## **Application of the Scheme**

- (a) The scheme will operate within the Development Management Division;
- (b) The job definition, experience, performance and qualification criteria for each grade are listed at Appendices A, B, C, D and E. Progression between the grades will depend on the individual demonstrating full job competence at the required level, as defined, and meeting the career progression and personal criteria specified in the appendices.
- (c) An individual's contract of employment will specify the relevant grade. If an individual progresses to the next grade, a revised contract of employment will be issued.
- (d) Progression will be regularly assessed by the relevant Team Leader and considered by the Head of Development Management for approval. Review periods, and particular progression paths that are based on the individual's pattern of further education (where underway) may be agreed in advance.
- (e) Progression between one grade and the next will be dependent on the individual's ability to perform the job responsibilities as defined. This means meeting the personal criteria of qualification, experience and performance and the availability of the right level of work. Also there being sufficient funds within the Development Management division devolved staffing budget.

## **Training and Education**

- (a) The Division will provide practical work experience at the grade where operational circumstances (workload and availability of work) and an individual's performance permit.
- (b) Funding for courses of further education/training relevant to progression within the career grade scheme is not automatic but is dependent on an individual performance and operational circumstances.
- (c) The Division may provide financial assistance for training and/or further education conditional upon an individual meeting a proportion of the costs and/or taking annual leave to attend training. This approach will always attempt to balance the interests of the Division (in maintaining motivation and developing and relating key staff) with the interests of the individual (in achieving a portable qualification);
- (d) The Council may require reimbursement for any costs or expenses it has incurred as a result of any training undertaken by the employee in the 2 years prior to the date of leaving the Council's employment.

## APPENDIX A
